 - a. True
 - b. False
10. HIV is a curable disease.
 - a. True
 - b. False

Bloodborne Pathogen Training

I have read through the Bloodborne Pathogens on-line training module and completed the attached quiz. If I do not score 80% or higher on the above test questions, I understand that I will be asked to retake the test. The training covered the following areas:

- Bloodborne pathogens diseases, including HIV/Hepatitis B
- Infectious Agents
- Modes of transmission
- Universal precautions to assist in the prevention of contact with blood and other body fluids including:
 - a. Personal protective equipment
 - b. Hand Washing
 - c. Personal Hygiene
 - d. Needles
 - e. Exposure Control Plan

- Signs and labels
- Emergency procedures in a situation involving blood or other potentially infectious materials, including: spill clean up and post-exposure protocol
- Hepatitis B Vaccination Policy

I have read and understand the contents and modes of transmission of HIV, HBV and other pathogens discussed in this training module. I further understand the protective measures to be taken to protect myself.
